

NOTES:

Dimension:

Dimensions are given in inches, as well as [millimeters] in an inch[millimeter] format.

Hole Dimension:

The diameter of the bigger hole is 0.071 [1.80] so you will be able to screw in the modules with an M2 screw while the diameter of the smaller hole is 0.031 [0.80] for the module stabilizer pins to fit in.

Printing:

If you would like to keep the 1:1 scale after printing you should disable any 'fit to page' or 'page scaling' options. If you use Adobe Acrobat Reader, please select 'Page Scaling: none' in the Print dialog box.
